

How is the AVA \$\$d created?

- **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Description

How is the AVA \$\$d call number created?

Resolution

AVA \$\$d is created from z30-call-number, using definitions in `./[adm]/tab/edit_field.eng`, field LOC identifier "D".

If Items are missing, AVA \$\$d is created from HOL record field 852, using definitions in `./aleph/aleph_start "correct_852_subfields"`.
