- **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Question

Is Shibboleth 64 bit supported with Aleph 22?

Answer

No, 64-bit Shibboleth is not supported with Aleph 22.

Aleph v22, as any previous version, is installed with apache & perl in their 32bit version and Shibboleth must comply to apache configuration.
