

## Memory corruption detected

- **Product:** Aleph
  - **Product Version:** 20
  - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
- 

### Problem Symptoms:

The following message is received during load:

```
Execution error : file ''  
error code: 252, pc=0, call=1, seg=0  
252 Memory corruption detected (addr=0xae9a004, type=1/1)
```

### Cause:

Program overflow caused by large data

### Resolution:

Correct the data (in this case it was large field 505, which had to be split in several sub-fields).
