## HKEY search results in: "Search failed" in cataloging

- **Product:** Voyager
  - **Product Version:** 8.2
  - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
- 

### Symptoms

- HKEY searches in cataloging result in "Search failed"
- log.voyager contains errors resembling:

```
catsvr[29802] - THEWORKS - Fri May 20 15:54:39 2016
```

```
- SOLError - search_sql_ppc.cxx[157]
```

```
Function code: 4 query="select b.bib_id ,b.mfhd_id from bib_mfhd b ,table  
(voy_search_parse.ParseBE4byte(:b0)) i where (b.mfhd_id=i.column_value and ROWNUM<:b1)"
```

- Oracle alert log contains error ORA-00600

### Cause

Duplication of the voy\_search\_parse object is causing the failure of searches dependent on the voy\_search\_parse package.

### Resolution

Duplicate packages in the database must be removed in the database. Open a case with Voyager support to remove duplicate packages.
