

## Leganto Release Notes June 2016 - HF

---

### Resolved Issues

The following issues were resolved in this hotfix release:

- (URM-59866) When copying a reading list to a course during a rollover, the reading list's copyright clearance resets to the default status.
- (URM-60756) When changing the visibility of the student discussion thread, Leganto deleted all of the citations in the list. This was fixed.
