

How to add a field to advanced search in the GUI?

- **Product:** Aleph
- **Product Version:** 21, 22, 23
- **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care

Question

How to add a new index field, e.g. ISBN to the advanced search in the GUI?

Answer

Add the relevant index into the list under "FI" in pc_tab_sear.lng.

From the header of xxx01/tab/pc_tab_sear.lng:

```
! FI - FIND CODE (as defined in tab00.lng - UTIL G/1/00)
! COL 1. 2; ALPHA {SC,FI,FO,SO,PF,FF}; ;
!           Code;
!           Code;
! COL 2. 20; ALPHA_NUM, UPPER; ;
!           Base code;
!           Base code as defined in tab_base (UTIL Y/3);
! COL 3. 1; ALPHA {L}; ;
!           ALPHA;
!           ALPHA;
! COL 4. 30; TEXT; ;
!           Displayed heading;
!           Displayed heading;
! COL 5. 5; ALPHA_NUM; ;
!           Code in tab00.eng;
!           Code in tab00.eng;
!           According to code in col. 1, code in tab00.lng, or edit_doc.lng or
!           tab_sort;
!
!           2           3           4           5
!!--!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!-!-!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!-!!!!!!

FI  USM01           L  ISBN           ISB
```
