

OPAC: Due date sometimes a linkable field sometimes not

- **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Question

When displaying items that are on loan in the OPAC the due date is sometimes a link sometimes not. Why is this?

Answer

This depends on the setting in tab31, col. 17 [= Loan display; Whether the patron details will display in the Web OPAC on the Holdings window attached to the item] and is valid for the patron who loaned the item.
