
Is there a preferred SSL certificate for Aleph?

- **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Question

Is there a preferred SSL certificate for Aleph?

Answer

Aleph and Apache don't have a preference for a certain certificate authority. The end user's web browser decides whether a certificate can be trusted.

Additional Information

For example, here is the browser compatibility information for Thawte:
<https://search.thawte.com/support/ss...tent&id=AR1111>
