

Field 300 punctuation

- **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Question

Can we modify the punctuation automatically added to field 300?

Answer

The program `fix_doc_punctuation_usm` adds hard-coded punctuation to field 245, 260 and 300. The Aleph Product Manager is reviewing the enhancement to support the new RDA punctuation in a future version.
