

Brief Display in GUI not Resizeable

- **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Problem Symptoms:

The Brief List display in the Show tab of the Cataloging GUI displays only one book at a time, and is not resizeable. It only occurs for one user.

Cause:

Site-specific PC profile (not an Aleph issue)

Resolution:

[from site]: Our IT technician recreated Ginger's RDWeb profile and this resolved the problem.

Aleph does not officially support any of the Remote Desktop applications.
