

Author search in Aleph plugin (from SFX)

- **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Question

How does the Author search work in Aleph plugin from SFX?

Answer

When you set `author_index` in `aleph_xserver_lookup.config` (on the SFX side), the search for the first author in OpenURL will be performed in addition to the Title search. The search must be for a Book.

Additional Information

See SFX User's Guide (Feb 24, 2011), pages 169-170.
