

Input for p-serial-12

- **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Question

Can serial-12 have Doc Numbers from HOL library in the input file?

Answer

Test Pattern Opening (serial-12) service needs input with publication pattern. This can be either ADM or HOL records.

Additional Information

See Online Help file:

If you select Doc numbers the file should be present in the \$alephe_scratch directory. The input file must contain HOL or ADM record numbers in the following format: .. </>
