
Due date display in the Cataloging module

- **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Description:

Is there anyway to display the Due Date in the cataloging module?

The tech services staff would specifically like to see the lost/missing/lost&paid status while viewing the item in cataloging.

Resolution:

You can add this information to the item display of the cataloging module.

In the file

In the `.[adm_lib]/pc_display_eng/item-expand`

add the following code in the position where you'd like it to display:

```
<th class="table-1" id="bold" align="right">
```

```
Loan Status
```

```
</th>
```

```
<td class=table-1>
```

```
./z36-status
```

```
</td>
```

```
</tr>
```
