
elib-29 in new xxx40 has error ORA-01031: insufficient privileges

- **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Problem Symptoms:

- * new ill library was created
- * script elib-29 (Import receipts from Netpunkt) fails with error:

```
Prepare SQL
```

```
ORA-01031: insufficient privileges
```

Cause:

required permissions are missing

Resolution:

Before running elib-29 in a new xxx40 library do the following:

1. sqlplus ALEPH_DBA/ALEPH_DBA
2. grant the following rights (replacing xxx with the actual name of the library):

```
grant select on usr01.z303 to xxx40;  
grant select on usr01.z308 to xxx40;  
grant select on usr01.z700 to xxx40;  
grant update on usr01.z303 to xxx40;
```

```
grant select on xxx40.z410 to xxx50;  
grant select on xxx40.z411 to xxx50;
```

3. Rerun the script elib_29 for xxx40
