

## CREATE SESSION privilege lacks

- **Product:** Aleph
  - **Product Version:** 20, 21, 22, 23
  - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
- 

### Problem Symptoms:

Connecting using library name to Oracle using SqlPlus (s+ xxxyy) it displays this error message:

ERROR:

```
ORA-01045: user xxxyy lacks CREATE SESSION privilege; logon denied
```

### Cause:

The ALEPH\_LIBRARY role was not created.

### Resolution:

Created using the /exlibris/app/oracle/admin/aleph20/scripts/create\_role\_profile script, and after granted this role to the Oracle users with

```
SQL> grant aleph_library to xxxyy;
```

```
from aleph_dba user
```
