## Remove/add PDS logout confirmation message

- **Product:** Aleph
  - **Product Version:** 20, 21, 22, 23
  - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
- 

### Desired Outcome Goal:

Add/Remove the window asking end users to confirm logout from PDS

### Procedure:

On PDS server go to `/exlibris/primop4_1/pds/conf_table/sso_conf` and changed the LOGOUT TYPE:

TYPE1 - no confirmation

TYPE2 - asks for logout confirmation

\*The variable parameters determine which applications will be affected by this variable.

\*Please note sometimes this parameter is determined in the `general_config` file at `/exlibris/primop4_1/pds/conf_table` - The PDS first looks for the `general_config` file. If it cannot locate this file, it looks for the `sso_conf` file instead.

### Additional Information

```
/exlibris/primop4_1/pds/conf_table/sso_conf
[LOGOUT]
TYPE1 = digitool,metalib,aleph,primo
[END]
```
