

Define the size of frame.

- **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Question

In displaying items in the Web OPAC: which file do I need to modify for personalize the frame's size?

Answer

File to modify:

```
$alephe_root/www_f_lng/item-global-head-1.
```

Add this line:

```
<div id="page">
```

between these two lines:

```
<body topmargin="0">
```

```
<include>head-1
```
