
Adding "z30_note_internal" in Retrieve by for "ret-adm-01" service.

- **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Question

Is it possible to add "z30_note_internal" in field Retrieve by for "ret-adm-01" service?

Answer

Only the following fields can be used for "General Retrieval Form (ret-adm-01)":

ADM doc. no KEY
Sub-library SUBLI
Item status STATU
Item process St. PSTAT
Item collection COLLE
Remote Storage ID DEPOS
Item year YEAR
Item descript. DESCR
Item call no.1 LOC1
Item call no.2 LOC2
Inventory date INVND
Inventory no. INVNN
Open date ODATE
Update date UDATE
No. of loans LOANS
Material type MATER
Cataloger CATLG
Statistics STATI
Arrival date ADATE
Item proc. st. date PDATE

If there are values missing in the drop down list in server p_ret_adm_01 they can be added in xxx50/tab/pc_tab_exp_field.ing, section P-RET-ADM-01:

P-RET-ADM-01 L ADM doc. no KEY
P-RET-ADM-01 L Sub-library SUBLI
P-RET-ADM-01 L Item status STATU

Additional Information

Note: ret-adm-03 ("Advanced General Retrieval Form") is a related Service, new with Aleph 21.
