

## How to list all searched terms, by resource?

- **Product:** Metalib
  - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
- 

### Question

How to list all searched terms, by resource?

### Answer

The report "MetaLib Search Queries" retrieves list of all the terms which were searched in each of the resource

To generate this report, follow these steps at the Back Office:

OnGoing menu > "MetaLib Administration menu" > "Reports & Statistics" > Choose the report "MetaLib Search Queries".
