

adam-07: Where is the information coming from?

- **Product: Aleph**
 - **Product Version: 22, 23**
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Question

Usage report (adam-07) generates a detailed breakdown of accesses per object sorted by user ID, object, record number, date or time. Where is the information coming from?

Answer

The information is taken from tables z403 (Object) and z35 (Events).

The event type for viewing an object is ...

40 = Object usage - Digital Assets Module
