

Due date in the past

- **Product:** Alma
-

Question

When an item is loaned the Loan Due Date is set to a date earlier than the current date.

Answer

- Check the library Calendar Management (Alma Configuration > Fulfillment > Library Management > Opening Hours).
 - All or some of the The Standard Opening Hours rows have the "Valid to" date in the past.
 - Because of this Alma sets the loans' due date to the last available and valid date present in the Calendar Management page.
 - Add new records for Standard Opening Hours setting a valid range of dates.
 - Click Apply Changes if required.
