

Citation trail and customized layout in Primo

- **Product:** Primo
 - **Product Version:** from May release 2016
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Question

In a customized Primo interface the Citation trail header, that contains the article title that is cited by or cites is not visible.

How can it be displayed?

Answer

The header should appear at the top of the results list, above the number of results and page navigation controls.

To fix the display:

1. In the Bo of Primo, select the View on which you have the problem.
2. Edit the view attribute page.
3. Click on Edit button that is in Layout set "customized layout"
4. In the Layout Editor, select **Brief Display** from the page drop-down
5. Then follow the steps described in the attached file
6. Deploy the view.
