
Change Number of Published Records in OAI

- **Product:** Rosetta
 - **Product Version:**
-

- How to Decrease the number of Records seen before the token key is created?
- For version 4.0 and higher:
 1. Login to 'Administer the system'.
 2. Go to "Advanced Configuration" > "General" > "Configuration Files" filter the list by File Group=External Interfaces, Sub-group=OAI_Provider.
 3. Edit the oaiproviderconfig.xml file.
 4. Reduce the number in this variable: `<ListRecordLimit>1000</ListRecordLimit>` .
 5. Save changes.
 6. Restart Rosetta (dps_stop followed by dps_start) (under v4.1).
- For versions lower than 4.0:
 1. Go to `/exlibris/dps/d4_1/system.dir/thirdparty/jboss/server/default/deploy/repository.ear/exl-oaiprovider-web.war/WEB-INF/classes`
 2. `vi oaiproviderconfig.xml`
 3. Reduce the number in this variable: `<ListRecordLimit>1000</ListRecordLimit>`
 4. Save changes (wq)
