

How can I schedule a job on the sandbox

- **Product:** Alma
 - **Product Version:**
 - **Relevant for Installation Type:**
-

Description

When opening "Monitor jobs" on the Alma Sandbox, we see the note "Please note all scheduled jobs are currently disabled on institution level". How can we schedule a job on the sandbox?

Resolution

Automatic scheduling of jobs is unavailable on sandbox environments, and it cannot be activated. You should use the "Actions" > "Run Now" option in order to test the jobs.
