

## Display of item in the OPAC - how to avoid?

- **Product:** Aleph
  - **Product Version:** 22, 23
  - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
- 

### Question

How to avoid an item from being displayed in the OPAC?

### Answer

Set the parameter in column 10 in table xxx50/tab/tab15.Ing to Y or N. If set to N the item will not be displayed in the Opac but will be displayed in the GUI.

If a record has several items with different settings the items with Y in col. 10 of tab15.Ing will be displayed in the OPAC and the others not. The bib record is although searchable in the Opac.
