

360 Link (legacy version): Video Tutorials

- **Product:** 360 Link

Do you have recorded video tutorials on how to set up and use 360 Link?

Note: The tutorials currently available reflect **legacy 360 Link**, not **360 Link with IEDL (Index-Enhanced Direct Linking)**. For an overview of 360 Link with IEDL, go [here](#).

We have created short (5 minutes) video demonstrations of 360 Link features and integration as well as how to perform customization tasks for the 360 Link interface.

The videos are available in two formats: WMV for Windows computers and MP4 for Mac and others. Click "WMV" or "MP4" to start the video.

If the video doesn't play, right-click on the link and then save the video to your computer. A final alternative is to right-click the attachments at the bottom of this page to download the videos.

Video tutorials on other ProQuest discovery and management products are available [here](#).
