

cash-11 Error : Missing mandatory fields in input file

- **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Description

We're testing cash-11 on our preprod server (aleph2.library.nd.edu), and keep getting this error: "Error : Missing mandatory fields in input file." But we *do* have all of the fields described in the Alep22 Staff User's Guide and in the cash-11 Help.

Resolution

This was caused by the inclusion of a minus sign in front of the z31_sum in the input file:

```
<z31-sum>-15.00</z31-sum>
```

Changing it to

```
<z31-sum>15.00</z31-sum>
```

corrected the problem.

Z31-SUM is in Integer format: only numbers are allowed.
