

## How do I disable patron activities in WebVoyage?

- **Product:** Voyager, Alma
  - **Product Version:** All
  - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
- 

### Question

We are getting ready for our circulation freeze, cutover and migration to Alma. How do I disable patron activities in WebVoyage?

### Answer

There are a number of patron activities that can be disabled by making changes to WebVoyage skin files.

[How do I disable the Change PIN functionality in WebVoyage?](#)

[How do I disable the ability to edit patron SMS data in WebVoyage?](#)

[How do I disable requests via WebVoyage?](#)

[How do I disable the cancellation of current requests via WebVoyage?](#)

[How do I disable renewal of charged items via WebVoyage?](#)

[How do I disable Media Booking through WebVoyage?](#)

See the attachment below for a document with screenshots on how to disable various Voyager OPAC features that allow patrons to update the database (requests, cancellations and renewals).
