

## Best method for Aleph indexing

- **Product:** Aleph
  - **Product Version:** 20, 21, 22, 23
  - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
- 

### Description

What's the best way to do Aleph indexing: regular, parallel, or ???

### Resolution

The pros and cons of each method (in the actual library on the Prod server, indexing in a parallel library on the Prod server, or on the Test server) are discussed in the attached document: [Indexing\\_Alternatives.docx](#) .
