

Extending idle session time of ssh connection

- **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
 - **Relevant for Installation Type:** Multi-Tenant Direct, Dedicated-Direct, Local, TotalCare
-

Question

How to prevent frequent disconnecting of ssh terminal sessions?

Answer

Add the following parameter to the end of \$alephe_root/aleph_start.private

```
unset autologout
```

and relogin to the server.
