
Ulrichsweb: Monitoring Title Changes

- **Product:** Ulrichs
-

What is the Ulrich's Update Feature?

Ulrich's Update is the easiest way to find out which title additions, cessations (ceased titles), title changes and title mergers have occurred in Ulrichsweb in the past month. Included in Ulrich's Update is an archive of monthly changes that can be searched by date and type of change. Any authorized Ulrichsweb user may view the Ulrich's Update.

How can I access the Ulrich's Update Feature?

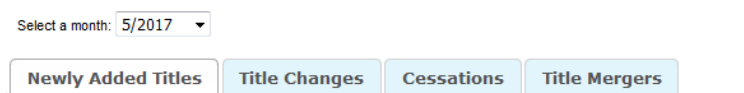

You can access the Ulrich's Update option from the main navigation bar.

You may choose the type of update to view by selecting a tab:

- Newly Added Titles
- Title Changes
- Cessations
- Title Mergers Monitoring

You may select a month to view under each tab by using the "Select a month" drop-down menu.

How can I get automatic notifications of updates?

You can set up an [Ulrich's Alert](#) to receive personalized email notifications of Ulrich's Update changes by type and subject area. A free [My Ulrich's account](#) is required to set up Ulrich's Alert notifications.
