

## Report Format configuration in Courtesy Notices (cir-10)

- **Product:** Aleph
- **Product Version:** 22, 23
- **Relevant for Installation Type:** Multi-Tenant Direct, Dedicated-Direct, Local, TotalCare

### Question

Is it possible to have different forms for service Courtesy Notices (cir-10)?

### Answer

cir-10 service has a Report Formats option. Here you can choose of predetermined report formats.

### Additional Information

The configuration is in \$alephe\_root/pc\_b\_ing/p-cir-10.xml :

```
<control>
  <drop_down>
    <argname>F07</argname>
    <label>Report Format</label>
    <default>00</default>
    <cbitem>
      <value>00</value>
      <display>Student</display>
    </cbitem>
    <cbitem>
      <value>01</value>
      <display>Lecturer</display>
    </cbitem>
    <cbitem>
      <value>02</value>
      <display>Professor</display>
    </cbitem>
  </drop_down>
</control>
```

The value (00,01,02 and etc.) mean in the file name:

```
loan-notice-letter.xml
loan-notice-letter-01.xml
```

loan-notice-letter-02.xsl

loan-notice-letter-03.xsl

etc.
