

## Barcode alignment is inconsistent in hierarchy display

- **Product:** Voyager
  - **Product Version:** 9.0.0; 10.1.0
  - **Relevant for Installation Type:** Multi-Tenant Direct, Dedicated-Direct, Local, TotalCare
- 

### Symptoms

Barcodes are right or left justified in the hierarchy depending on whether they are interpreted as a string or number.

### Defect Status

VYG-7269 is resolved in Voyager 10.1.0

### Replication Steps

1. Add items to to bib record, some with only digits and others with letters and digits.
  2. Open hierarchy
  3. Barcodes interpreted as strings display left justified and barcodes interpreted as numbers display right justified.
