

## Ebsco Targets without the Ebsco API

- **Product:** SFX
  - **Product Version:** 4
  - **Relevant for Installation Type:** Multi-Tenant Direct, Dedicated-Direct, Local, TotalCare
- 

The Ebscohost article matcher is only relevant for journal articles.

It does not support book searches or old versions of Ebsco targets, such as Electronic Journals Service.

Therefore there are a number of Ebsco targets that do not have a Link Resolver Plugin. This is as expected and will not be changed.

The Ebsco targets that do not have a Plugin work by using a different mechanism.

These targets include, but are not limited to:

- EBSCOHOST\_ACADEMIC\_COLLECTION\_WORLDWIDE
- EBSCOHOST\_BOOK\_COLLECTION\_
- EBSCOHOST\_EBOOKS\_
- EBSCOHOST\_AUDIOBOOK\_
- EBSCOHOST\_NEWSPAPER\_SOURCE\_
- EBSCOHOST\_ELECTRONIC\_JOURNALS\_SERVICE
- EBSCOHOST\_E-JOURNALS

If you encounter any specific issue with the linking to Ebsco, please open a case.
