### Question

I have questions or an issue related to the New Books extension we use for WebVoyage. Can you help me?

### Answer

Support can assist with products and extensions created and maintained by Ex Libris. New Books is a third party extension. For assistance with third party extensions or products, contact the vendor or owner of the extension or product in question.

[The latest version of New Books can be found here](#) and the code owner can be [contacted here](#) with questions or issues. [Voyager-L](#) can also be an excellent resource for advice and assistance with third party extensions and products.
