
What does Bursar Transfer config file do?

- **Product:** Voyager
-

Question

What does Bursar Transfer config file (bursar.cfg) do? What are its requirements?

Answer

The bursar.cfg file tells Bursar program the Circulation Location(s) and Patron Group(s) associated with fines to be transferred

Requirements

- File must be in a directory with read permissions for voyager user
- Circulation Location must correspond to Location Codes found in System Administration for Circulation happening locations, or use ALL for all locations
- Patron Group must correspond to Patron Group Codes found in System Administration, or use ALL for all Patron Groups

Additional information

Sample file

```
[CIRC LOCATIONS]
CIRC
RESERVE

[PATRON GROUPS]
UNDERGRAD
GRAD
```
