

Setting default values for GUI Services parameters

- **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Description

How can you change the default which users get when they bring up the submission screen for a particular GUI Service, such as the acq-10 Service? We want to change default value for "Update Database" from "No" to "Yes".

Resolution

The defaults shown for a particular GUI service are found in the \$alephe_root/pc_b_eng or if, none there, the \$alephe_root/pc_b_eng. In this case, that is the \$alephe_root/pc_b_eng/p-acq-10.xml or the \$alephe_root/pc_b_eng/p-acq-10.xml.

The p-acq-10.xml has these lines:

```
<label>Update Database</label>  
<source>explicit</source>  
<default>N</default>
```

You would change the `<default>N</default>` to `<default>Y</default>` and restart the pc_server.
