

## Positions and Position Actions

Duration: 9 min.

<b>Description</b>	Campus Maps, Locations and Positions in the campusM app enable the end user to pinpoint locations and navigate campus maps based on real GPS coordinates. This session focuses on specific configuration for Position Actions and how they can be used, including how to configure actions against iBeacon Touchpoints.	<b>Attachments</b>  <a href="#">Handout</a>
<b>Target Audience</b>	New and existing customers with responsibility for managing/maintaining their campusM instance.	
<b>Prerequisites</b>	<a href="#">Maps and Locations</a>
