

Primo VE December 2017 Release Notes - HF

The following issues were resolved in this hotfix release:

- (URM-83801) In some cases, staff users logging on to Primo VE were redirected to the Alma interface. This has been fixed.
- (URM-83889) An issue was found in the December release that prevented the JAWS screen reader from reading the titles on the Brief Results page. This has been fixed.
