

January 2018

Please Note: All customers beta/dev apps (to be referred to as Sandbox Apps going forward), will be moved to the latest version on the 11th December 2017 as part of campusM's move to Monthly Releases. Hockey App builds for the native apps will be made available during the week commencing 11th December 2017

Development	Affected Platform(s)
<p>Enabled location-based ordering of campus maps. Where one or more campus maps are associated with the location of the user, these will be moved to the top of the available map list.</p> <p>This will enhance end users' ability to open the correct map corresponding to their present location. Useful for multi-campus institutions.</p>	<ul style="list-style-type: none"> • iOS App • Android App
<p>BETA: Enhanced the Oracle Business Intelligence reporting framework to include the ability to generate and save custom reports against the existing Insight data structures.</p> <p>Please review https://knowledge.exlibrisgroup.com/campusM/Product_Documentation/Analytics for further information on campusM OBI Analytics.</p>	<ul style="list-style-type: none"> • OBI Analytics
<p>BETA: Enhanced the Oracle Business Intelligence reporting framework to include the ability to share custom reports with other campusM users. Note: this will only share the report structure, not a customer's data with the community.</p> <p>Please review https://knowledge.exlibrisgroup.com/campusM/Product_Documentation/Analytics for further information on campusM OBI Analytics.</p>	<ul style="list-style-type: none"> • OBI Analytics
<p>Addressed an issue that prevented some iOS users from deleting all Alerts from their device.</p>	<ul style="list-style-type: none"> • iOS App
<p>Addressed an issue that crashed the iOS app when a positions action was clicked on.</p>	<ul style="list-style-type: none"> • iOS App
