

## Record Created By / Edited By

- **Product:** Alma
  - **Product Version:** Jan 2018 Release
- 

### Description

Why Imported records are Created by Ex Libris and Updated by System?

### Resolution

When import is run manually the records are created with the username of the user who triggered the import.

When import is scheduled or automatically uploaded from OCLC Connexion, the records are created by Ex Libris and Updated by System.

Records are also updated by System after Synchronization jobs.
