Duration	11 min.
Description	Normalization mapping tables contain definitions needed for normalization, such as how to handle library and institution codes. Delivery Template mapping tables contain information on how Primo provides URLs to different external systems. This session demonstrates how these mapping tables are configured.
Target Audience	Staff implementing and maintaining Primo
Prerequisites	<ul style="list-style-type: none"> • Primo Introduction Getting Started Series • 01 Primo Back Office Overview • 02 Primo Administrative Structure • 03 Primo Publishing Platform • 04 Publishing Platform: Pipes Configuration • 05 Primo Normalized XML (PNX) • 06 Normalization Rules Overview • 07 Normalization Rules Configuration
Recommended Articles	<ul style="list-style-type: none"> • Using Normalization Mapping Tables • Working with Delivery Templates
