

Transactions for fund do not appear immediately

- **Product:** Voyager
 - **Product Version:** 10.1.0
 - **Relevant for Installation Type:** Multi-Tenant Direct, Dedicated-Direct, Local, TotalCare
-

Symptoms

When adding a transaction to a fund in a ledger, the user has to click out and click back into the transactions area to see the evidence of their transaction.

Defect Status

VYG-7315 is resolved in Voyager 10.1.0 and higher.

Replication Steps

1. Open a ledger, click to the fund.
2. Click on "Transactions" and add allocation to the fund.
3. Click "OK".
4. Fund doesn't reflect latest change.
5. Click into another tab, then back into Transactions.
6. Change appears.

Workaround

Click into another tab, then back into Transactions, to make sure it has been properly completed.
