

Colon placement for Display Constants when using the NewUI

- **Product:** Primo
- **Relevant for Installation Type:** Multi-Tenant Direct, Dedicated-Direct, Local

Question

Why is there a colon at the end of a constant in the full display?

Answer

In the New UI, a colon is added automatically by Primo when there is none at the end of the string.

A few examples when adding the following line to the PNX:

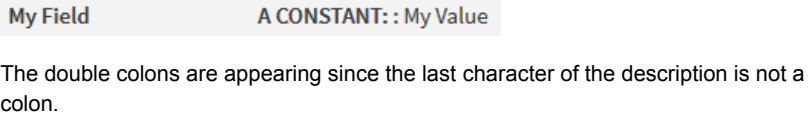

```
<lds02>$$Cmyconst$$VMy Value</lds02>
```

(Back Office -> Code Tables -> Display Constants)

No colon at end of string

Code	Output
	

Colon within html tags

Code	Output
	

Colon after html tags

Code	Output
<div data-bbox="126 262 626 352"><p>Code ▲▼ Description ▲▼</p><p><input type="text"/> <input type="text"/></p><p><small>default.fulldisplay.constants.myconst</small> <small>A CONSTANT </small></p></div>	<div data-bbox="662 275 1157 327"><p>My Field A CONSTANT : My Value</p></div>
