

7.5 Collection Management

Duration	13 min.
Description	Collections in Rosetta allow you to compile together IEs and deliver them to the end-users. In this session, we'll show how browse and view your collections, how to create new collections, how to assign IEs to your collections - manually or automatically, and how to publish your collections to your discovery system.
Target Audience	<ul style="list-style-type: none">• Rosetta Staff Users
Prerequisites	<ul style="list-style-type: none">• Managing Sets in Rosetta
