

## IP addresses out of sync

- **Product:** Legacy RefWorks
- 

### Question

Why are the IP addresses listed in the legacy RefWorks admin page not correct for our institution?

### Answer

This is a display issue which does not affect product functionality. If you need to add IP addresses or confirm which IP addresses are configured for your account, please contact RefWorks support at [refworks.support@proquest.com](mailto:refworks.support@proquest.com)
