
COBOL compile fails: "version 'DBG_GEN_5.1' not found"

- **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Description

```
aleph@libms3(a21_1):~...source/com_c>compile_cc com_c urm_date_handle.c
compile_cc: com_c urm_date_handle
ld.so.1: acomp: fatal: lib_I_dbg_gen.so.1: version 'DBG_GEN_5.1' not found (required by
file /opt/solarisstudio12.3/prod/bin/acomp)
ld.so.1: acomp: fatal: lib_I_dbg_gen.so.1: open failed: No such file or directory
cc: Fatal error in /opt/solarisstudio12.3/prod/bin/acomp : Killed
mv: cannot access urm_date_handle.o
```

Resolution

The problem could be either the `./acomp` file:

```
aleph@libms1(a21_1):...prod/bin>ls -lrt /opt/solarisstudio12.3/prod/bin/acomp
-rwxr-xr-x 1 root sys 1573828 Oct 19 2013 /opt/solarisstudio12.3/prod/bin/acomp*
```

or the `$COBDIR/bin PATH` in `aleph_start`. In this case, the problem was the path.
