

Integrating with Cayuse

Note

To enable Cayuse integration with Pivot-RP, contact Pivot-RP Support (pivot.support@proquest.com). Once enabled, a link to the Cayuse Configuration Settings page appears in the Admin Dashboard (**Admin > Tools > Cayuse Configuration > Set Cayuse URL and Preferences**).

When enabled by Ex Libris, you can integrate Pivot-RP with Cayuse 424 or Cayuse SP to enable mutual customers to start grant proposals in Cayuse. You configure this integration on the Cayuse Configuration Settings page (**Admin > Tools > Cayuse Configuration > Set Cayuse URL and Preferences**).

The image shows a screenshot of the 'Cayuse Configuration Settings' page. The page has a navigation bar at the top with tabs for 'Funding', 'Profiles', 'Papers Invited', 'Admin', and 'Funding'. Below the navigation bar, there is a search bar and a breadcrumb trail: 'Reports > Institutional Settings > Groups > Education & Training > Statistics > Tools > Manage Gallery'. The main content area is titled 'Cayuse Configuration Settings' and contains the following options:

- 'Display Cayuse link for all users?' with radio buttons for 'Yes' (selected) and 'No'.
- 'Select your Cayuse product' with radio buttons for '424' (selected) and 'SP'.
- 'Enter your Cayuse URL shortname' with a text input field containing 'chufnagel-test' and a preview URL: 'https://chufnagel-test.cayuse424.com/...'.

At the bottom of the form, there are 'Save' and 'Cancel' buttons. The footer of the page includes links for 'Support/Help', 'About Pivot', 'Privacy', 'Terms of Use', 'Cookies', 'Accessibility', and 'Contact', along with a copyright notice for ProQuest, LLC.
