

## Analytics Evidence LSU4 - Need Attributes on Student Usage Per Device

Created By: Igelu-Eluna Analytics  
Created on: 1/15/2019

No attributes available to report on student usage via Device/OS/Browser, as with Primo Analytics.

### Use Case:

Users would like to know the distribution of users using devices, operating systems, browsers for reporting and troubleshooting purposes.

Other Action Usage subject area fields could include: On Campus, User Group. The additional action usage fields can help to target support to these groups of users.

status: open

priority: medium

subject area: student usage
