

## Analytics Evidence PS3 - Add Common Dimension of 'CAMPUS' to All Subject Areas

Created By: Igelu-Eluna Analytics  
Created on: 1/15/2019

### Use Case:

Consortia and multi-campus sites are unable to trace usage by campus.

Users need to get campus data by using Google Analytics instead of Primo Analytics.

Users should not have to look outside of Primo Analytics to get this data.

status: open

priority: high

subject area: general
